

- Online entry of orders
- Online, real-time access to investigation results
- Automatic provision of legal documents
- Secure and safe

*Coast Guardian Investigations Inc. (CGI) presents CGI-Verix™, its secure web-based portal.*

*CGI-Verix™ makes the following services available to CGI's clients, all online and in real-time:*

- Entry of investigation orders: CGI receives orders as soon as they are created.
- Provides clients and applicants with government and legal forms matched to the type of investigation required. Ensures applicants view and read all required documents before an investigation can commence.
- Provides clients and applicants with online forms tailored to the investigation services required.

- Makes candidate applications available online for clients to view or print.
- Clients can monitor the completion of investigation reports in as they develop.
- Clients can search candidate applications by several criteria, and then display candidate data and investigation reports.

Coast Guardian Investigations Inc is built on the expertise developed during 20+ years of both law enforcement and corporate experience. Today, we combine those skills with high-tech resources to offer the most innovative, professional investigative services available.

We are on-line with a national records and research database, instantly accessible

through our toll-free number, and available for investigations anywhere in the United States.

Our state-of-the-art techniques place comprehensive, vital information at your fingertips.
